

Stuart C. Sweet M.D., Ph.D.

Institution: <http://peds.wustl.edu/pulmonary/Home/tabid/94/Default.aspx>

Dr. Sweet received his undergraduate, graduate and medical degrees at the University of Michigan. He was pediatric resident and pediatric pulmonology fellow at Washington University before joining the faculty in 1996. He became medical director of the pediatric lung transplant program in 1999.

Past honors include the Parker B. Francis Fellowship in Pulmonary Research, Scholar of the Child Health Research Center of Excellence in Developmental Biology, Washington University, Medical Scientist Award for Excellence, University of Michigan. Dr. Sweet is immediate past Chair of the Organ Transplantation and Procurement Network (OPTN) / United Network for Organ Sharing (UNOS) Pediatric Transplantation Committee and is currently a member of the Board of Directors of the OPTN/UNOS as well as the International Society for Heart and Lung Transplantation.

Dr. Sweet's primary research focuses on improved understanding of the important factors determining outcome after lung transplantation in children.

Other interests include organ allocation and the use of information technology in medicine.
